Chicago, Illinois 60604

Re: Jerome Mercury Vapor Analyzer(s)

Dear Ms. Nachowicz:

This is in follow-up to my telephone conversation with Brad Stimple concerning our agency borrowing Jerome Mercury Vapor Analyzer(s). As we discussed, the analyzer(s) will greatly increase our ability to respond to mercury spill cleanups that are ongoing at several locations in the Chicagoland area.

We greatly appreciate your willingness to help us out by loaning the equipment. It is anticipated that the cleanups will be occurring for 4 to 6 months. In the meantime, we understand that the analyzer(s) are subject to recall if need arises. We will of course accept the responsibility to repair the analyzer(s) should they become damaged while in our possession.

Thanks again.

Sincerely,

  
James A. Jansson, P.E.  
Senior Technical Advisor  
Illinois Environmental Protection Agency
